

Dire Wolf to bring Wings of Glory tabletop game to digital

January 18, 2019 – [Ares Games](#) and [Dire Wolf Digital](#) announce a license agreement to bring the [Wings of Glory](#) tabletop games to digital. Dire Wolf Digital will work on a game to bring the exciting dogfights of Ares' best-selling aerial combat system to PCs, phones and tablets.

Wings of Glory is a fast-playing and easy to learn game system created by Andrea Angiolino and Pier Giorgio Paglia that allows players to recreate aerial combat during World War I and II, using cards and miniatures to represent the airplanes and their maneuvers. Players control one or more airplanes, taking to the skies to engage their opponents in aerial duels, or trying to accomplish a specific mission, such as recon, escort, or bombing.

Based in Denver, Colorado, Dire Wolf Digital is an experienced independent game studio. A few years ago, the company started a partnership with Renegade Game Studios to bring their suite of tabletop titles to digital, developing the digital editions of "Lanterns: The Harvest Festival" and "Lotus", and now is expanding its projects of digital adaptations of tabletop games – in addition to "Wings of Glory", Dire Wolf is announcing new partnerships for "Mage Knight", "Root", "Sagrada", "Yellow & Yangtze", and "Raiders of the North Sea."

"At Dire Wolf Digital, we believe in making fun strategy games that are accessible to everyone. And we can't even begin to tell you how excited we are to bring this roster of amazing tabletop games to digital players around the world. We hope you'll love them as much as we do", said Scott Martins, president of Dire Wolf Digital.

"We are glad to announce this partnership with Dire Wolf Digital to take the Wings of Glory game experience to electronic devices. It's something our existing players asked for, and we believe it will be a great asset to introduce our game system to new players", commented Roberto Di Meglio, director of production of Ares Games.

More details about the digital adaptations of *Wings of Glory* by Dire Wolf will be unveiled in the coming months.

About Ares Games

Ares Games is a board game publisher with offices in USA and Italy, established in 2011 to create quality hobby products for the international audience. Ares Games is the publisher of the award-winning "War of the Ring" board game, of the "Wings of Glory" range of airplane combat games and miniatures, and of the award-winning tactical ship-to-ship miniature game "Sails of Glory". Ares Games' catalog of miniature wargames is now expanding with the "Battlestar Galactica – Starship Battles" game. Ares Games is also the publisher of the cooperative tactical dungeon crawler "Sword and Sorcery" and its catalog also includes family games and euro games.
